

EAST HADLEY ROAD
No House #

July 29, 1959

Mr. Stanley Wojtucz
East Hadley Road
Amherst, Massachusetts

Dear Mr. Wojtucz:

A check of the soil conditions on the property you are building on - East Hadley Road shows solid compact clay of the poorest qualities.

This is to inform you that because of this condition you will be required to use only a system of leaching tile over a bed of bank run gravel - a minimum area of 600 sq. ft. (six hundred) no less than 18" in depth. Over this bed there will be no less than two (2) leaching lines over 6" or more washed or screened gravel stone and further covered to a depth of 2" or more with stone (1/8" - 1/4" Size). All this leading from a distribution box with places for extra leaching lines for possible future use.

Your cooperation in notifying us in advance at the time of construction of this system will be appreciated.

Very truly yours,

Frederick A. Siino, R.S.

Mr. Stanley Wetmore
East Hadley Road
Amherst, Massachusetts

Dear Mr. Wetmore:

A check of the soil conditions on the property you are
building on - East Hadley Road shows solid contact clay
of the process quality.

This is to inform you that because of this condition you
will be required to use only a system of leaching lines
over a bed of bank run gravel - a minimum size of 1/2 in.
1 1/2 (six hundred) no less than 1/2 in. (over this
bed there will be no less than 2) (2) leaching lines
over 6" of more washed or screened gravel above and further
covered to a depth of 2' or more with stone (1/2" - 1 1/2"
size). All this leaching lines a distribution box with pipes
for extra leaching lines for possible future use.

Your cooperation in notifying us in advance of the time of
completion of this system will be appreciated.

Very truly yours,

Frederick A. Smith, R. J.
Agent & Sanitarian
