Subject: Title 5 Septic System Inspection at 79 Larkspur Drive (Property of Weihong Zheng) (Previously Louis Quin)

Dear Dave:

On September 17, 2004 I completed an inspection of the septic system at the subject property in accordance with 310 CMR 15.000 (Title 5) requirements. A copy of the report are enclosed for your use.

This system is certified as, "Passed" by the criteria in the regulation. Additional comments are included in the report. This system was repaired in 1998 so documentation of that repair should be in your files.

If there is any more documentation of the history that you need, or if you have questions on any aspect of the inspection or the report, please contact me at the address above or by phone evenings.

Sincerely,

Richard Scott, P.E.
