

Amherst Breeding Bird Survey: University Drive

Amherst Breeding Bird Survey						
Route Name: University Drive						
Site #	Owner 1990	Vegetation 1990	Description 1990	Description and Habitat Notes 2009	Latitude	Longitude
U1	(parking lot)	shrub field with wet sections	at back of post office parking lot west side of University Drive at the northwest corner of the first line of chain link fence N of the building	New office building where shrubland was. Now go to back of #101 at SW corner of back parking lot can see chain link fence and PO behind. Still some wet shrubland between and behind buildings. Area so busy and noisy that best birding time is weekends.	42.3700	-72.5350
U2	T.Beggs, D.Keenan	shrub field with wet sections	70' E of NE corner of Kaiser parking lot (100 University Drive) between clump of dogwood shrubs and clump of buckthorn shrubs	No longer Kaiser, but still #100 and still NE corner of parking lot. Present survey site probably only 60 ft E. Major habitat change: large assisted living facility to the east. Area w of site now plowed garden. Only small shrub area remains.	42.3709	-72.5311
U3	UMass	marsh and mowed field with large willows	at stadium marsh SW side of stadium oval at S side of big willow which is no 7 from the south in a line of big, multi-stemmed willows	Not sure when 116 put in, if less than 20yrs would reduce size of marsh. Tree used now is just south of small swamp inlet which comes almost to the track.	42.3762	-72.5405
